Obituary.

Died, near Pattieville, this county, at 4 o'clock a. m., Friday, July 6th, 1883, of flux, Winnie E. daughter of John E. and Nannie G. Hamilton, aged one year, eleven months and four days.

At 4 o'clock p. m. It was laid in the James W. Mathews graveyard on the farm now owned by Lee Grant. This child was in the best of health when she was sick ten days when the disease terminated in death. The father and mother are also sick with the disease at this writing, and their oldest child, a little boy four years old, is sick with pneumonia. Mr. Hamilton is a native of Breckin county, and moved to Ohio county about four years ago. Mrs. Hamilton was born in Clermont county, Kentucky. Her father, Mr. G. W. Robertson, moved from Breckin county to Ohio county with others about four years ago, and at present he lives on what is known as the Wing farm.

"I conceive it to be my duty to you and to the public equally," wrote Will Lofton Hargrave, Esq., of the Wesleyan Female College, Murfreesboro, N. C., as far back as 1852, "to state that in constant family use of Dr. Worthington's Diarrhoea and Cholera Medicine, I have found it of unfailing efficacy. While it is of priceless value in diarrhoea, dysentery and cholera infantum, it is scarcely, if at all, less efficient in nervous affections generally, and as an adjunct in fever and ague,"

This awakened my courage. I felt that I would not die that time. I continued to use the remedy, taking it in accordance with directions, until I became not only restored to my former health and strength, but of greater vigor than I had known before. TORNADOES.

Scientifically Accounted for, and Some Remote Causes that Produce Painful Results Explained.

The following synopsis of a lecture delivered by Dr. Horace R. Hamilton before the New York society for the promotion of science, contains so much that is timely and important that it can be read with both interest and profit:

There is probably no subject of modern times that has caused and is causing greater attention than the origin of tornadoes. Scientists have studied it for the benefit of humanity; men have investigated it for the welfare of their families. It has been a vexed subject long considered, and through all this investigation the cyclone has swept across the land carrying destruction to scientists as well as to the innocent dwellers in its track. One thing, however, is certain—the cause of the cyclone must be sought far away from the whirling wind of wind itself. Its results are powerful; its cause must also be powerful. Let us therefore consider a few facts. First, the appearance of a cyclone is invariably preceded by dark spots upon the sun. These spots, indicating a disturbed condition of the solar regions, necessarily affect the atmosphere of our earth. An unusual generation of heat in one part of the atmosphere is certain to cause a partial vacuum in another; and air must rush in to fill it. Hence the disarrangements—hence the cyclone. This theory finds additional confirmation in the fact that tornadoes come during the day and not at night. The dark spots upon the surface of the sun, whatever they may be, seem to cause great emotion in the atmosphere of the world, and it is almost certain that the extremely wet weather of the present season can be accounted for on precisely this basis. Is it reasonable to suppose that the marvelous effect of the sun upon vegetation and life in general shall be less than upon the atmosphere itself through which its rays come? The cause is remote, but the effect is here.

After describing some of the terrible effects of the cyclone, the speaker went on to say:

This rule finds its application in nearly every department of life. An operator is in San Francisco—the click of the instrument manipulated by his fingers—in New York. The President makes a slight stroke of the pen in his study at the White House and the whole nation is aroused by the act. An uneasiness and disgust with every thing in life, commonly called homesickness, is felt by many people, when the cause is to be found in the distant home thousands of miles away. An uncertain pain may be felt in the head. It is repeated in other parts of the body. The opposite departs and all energy is gone. Is the cause necessarily to be found in the head? The next day the feeling increases. There are added symptoms. They continue and become more aggravated. The slight pains in the head increase to agonies. The nausea becomes chronic. The heart grows irregular and the breathing uncertain. All these effects have a definite cause, and after years of deep experience upon this subject, I do not hesitate to say that this cause is to be found in some derangement of the kidneys or liver far away from that portion of the body in which these effects appear. But one may say, I have no pain whatever in my kidneys or liver. Very true. Neither have we any evidence that there is a cyclone on the surface of the sun, but it is none the less certain that the cyclone is here, and it is none the less certain that these great organs of the body are the cause of the trouble, although there may be no pain in their vicinity.

I know whereof I speak, for I have passed through this very experience myself. Nearly ten years ago, I was the picture of perfect health, weighing more than 200 pounds, and as strong and healthy as any man I ever knew. When I felt the symptoms I have described above, they caused me anxiety, but because I had never felt any pain before. Other doctors told me I was troubled with malaria, and I treated myself accordingly. I did not believe, however, that malaria could show such aggravated symptoms. The pain never occurred to me that analysis would help solve the trouble, as I did not presume my difficulty was located in that portion of the body. But I continued to grow worse. I had a faint sensation at the pit of my stomach nearly every day. I felt a great desire to eat, and yet I loathed food. I was constantly tired and still I could not sleep. My brain was usually active, but I could not think connectedly. My existence was a living misery. I continued in this condition for nearly a year; never free from pain, never for a moment happy. Such an existence is far worse than death, for which I earnestly longed.

I have been informed that Miss Nannie King, of this place, will teach the water school at Green Brier near Sutton.

I continued to use the remedy, taking it in accordance with directions, until I became not only restored to my former health and strength, but of greater vigor than I had known before. This condition has continued to the present time, and

it is the same with all those who desire it, this receipt, in German, French or English, cures all diseases of the stomach and intestines.

"I had 'em all," said a rubicund, haphazard gentleman. "All what?"

"Why, all the symptoms of malaria, viz.: lame back, aching joints, sleeplessness, indigestion, dizzy fits, cold extremities, rash of blood to the head, constant fatigue, no appetite, pains in the breast after eating, night sweats, alternate chills and fevers, etc., but Brown's Iron Bitters cured me and I recommend it as being the only perfect tonic made."

I believe I should have died as miserably as thousands of other men have died and are dying every day had it not been for the simple yet wonderful power of Warner's Safe Cure, the remedy I employed.

The lecturer then described his means of restoration more in detail and concluded as follows:

My complete recovery has caused me to investigate the subject more carefully, and I believe I have discovered the key to most health of our modern civilization. I am fully confident that four-fifths of the diseases which afflict humanity might be avoided were the kidneys and liver kept in perfect condition. Were it possible to control the action of the sun, cyclones could undoubtedly be averted. That, however, is one of the things that can not be. But I rejoice to say that it is possible to control the kidneys and liver, to render their action wholly normal, and their effect upon the system that of purifiers rather than poisoners. That this end has been accomplished largely by means of the remedy I have named I do not have a doubt, and I feel it my duty to make this open declaration for the enlightenment of the profession and for the benefit of suffering humanity in all parts of the world.

It is the same with all those who desire it, this receipt, in German, French or English, cures all diseases of the stomach and intestines.

DEMOCRATIC TICKET

FOR GOVERNOR,
J. PROCTOR KNOTT.

FOR LIEUTENANT GOVERNOR,
J. R. HINDMAN.

FOR ATTORNEY GENERAL,
P. W. HARDIN.

FOR AUDITOR,
FAYETTE HEWITT.

FOR TRASURER,
JAMES W. TATE.

FOR SUPRT. PUBLIC INSTRUCTION,
JOSEPH DESHA PICKEET.

FOR REGISTER OF THE LAND OFFICE,
J. G. CECIL.

FOR REPRESENTATIVE,
W. D. COLEMAN.

THE upper house of the English Parliament have determined that a man cannot legally marry his deceased wife's sister.

DEMOCRATS of Ohio county, turn out on Monday, August 6th, and discharge your duty by voting for that tried, true and worthy old Democrat, W. D. Coleman, for Representative and for the whole ticket through.

No Democrat in Ohio county has a valid reason for failing to vote for uncle Billy Coleman. He is an honorable man, a practical man, a man of sense, experience and information, upon the subjects that will be legislated upon and is a consistent Democrat. Vote for him.

WE see that Judge Hoke, of Louisville, in speaking about the election, says: "Any man can have a poll opened and have himself voted for any office at any election that he can have himself voted for U. S. Senator." If this is the law, we suggest to Major Crumbaugh that he have a poll opened for Secretary of the Navy and he will no doubt get the votes of all the storekeepers and gingers except Axton and Meredith.

THE Democrats of Ohio county never have the voice in State and District Conventions; they are or might be entitled to because of their apathy in voting for the Democratic State ticket. They think well, our ticket will be elected any way by a large majority and its no use to vote as it will not change the result. Right there they miss it! Ohio county's strength in District and State Conventions for the next four years will be measured by the vote for the State ticket this year and hence the importance of a full vote. Turn out in full, and vote the ticket through from "end to end."

Just as we predicted last week the investigation of Revenue Agent Wagner of the charges preferred by Storekeeper Axton against Collector Crumbaugh, proved a whitewash only. It has no semblance of an investigation; the proceedings were all private and Wagner refused to summon witnesses or show the persons making the charge the counter affidavits filed or a chance to interrogate the witnesses. We do not know whether the charges are true or not, but if Collector Crumbaugh had been acquitted of them after a fair and full investigation, his innocence would appear much clearer than it does through this dash of whitewash.

ARE you a voter? If so, we have a word to say to you. It is your duty to yourself, to your family, to your County, State and County, to go to the polls on Monday, August 6th, and vote for the calling of a Constitutional Convention. We now have no Constitution at all practically. We have the old antebellum, mass-back concern which has slavery as one of its chief corner stones, which has long since been rendered nugatory by a mightier power. We need a Constitution to suit the times, and it requires a majority of the voters of the State to call the Convention. If you do not vote at all, you are counted against calling a Convention. Go, if you have to be hauled, and vote for calling a Constitutional Convention.

THESE are not Democratic official or ex official in Ohio county elected to office since 1865 that does not owe his election in a very great measure to W. D. Coleman. In every contest he has used his influence and vote for the Democratic candidates. He has not merely voted, but has never left a stone unturned to secure Democratic success. Now, if those who have enjoyed the honors and emoluments of office by reason of his help, will vote themselves and use their influence to get their friends to vote for Mr. Coleman, he will be elected by a large majority. Will they do it? Are they not ungrateful if they do not? Are they good Democrats if they fall or refuse to do so? They surely will return help for help. We'll see and advise our readers if they do.

Whitewashed.

REVENGE Agent Wagner has completed the investigation of the charges made by Storekeeper I. H. Axton against Collector Crumbaugh, of the Second Kentucky Collection District. Under date of July 14th, Agent Wagner reports to the Commissioner of Internal Revenue that in his opinion the charges made by Axton have been entirely disproved; that the testimony of the witnesses depended upon to sustain the charges has been entirely discredited by the proof that Axton was convicted for desertion during the war and that Storekeeper Meredith has been convicted of perjury. Moreover, it was shown by the testimony of the witnesses for the Collector that he had never made any proposition such as had been attributed to him. Agent Wagner further says that he finds that the charges

made by Axton were prompted by Geo. W. Joly, of Owensboro, who admitted he was an applicant for the Collectorship and meant to secure the disbursement of Mr. Crumbaugh in his own interest, if possible. — *Wagner's Report*, and to partition the manner taking the list of qualified voters.
